

## OUR ENVIRONMENTAL AND ENERGY POLICY

We are committed to keeping pace with technological advancements, preventing environmental pollution, reducing waste at its source, recycling wherever possible, and disposing of non-recyclable waste in an environmentally responsible manner. We also prioritize the procurement of energy-efficient products and services.

We comply with all recognized national and international legal regulations and other obligations related to environmental and energy matters.

By continuously improving our environmental practices and energy performance, we aim to reduce the consumption of natural resources, use energy, water, and other resources efficiently, and adopt environmentally friendly products.

We promote environmental and energy awareness by providing training to our employees and raising awareness among our suppliers and guests.

As part of our commitment to combating climate change, we pledge to reduce our carbon footprint.
